III. Reports

Emily Banks, AF Hartford High School Principal, reported that the 9th grade is proving to be a relatively strong grade, despite initial concerns following a challenging 8th grade year last year. She attributed much of this to a particularly strong group of 9th grade teachers.

Ms. Banks shared that alumni are all over social media talking about how well prepared they feel for college and the younger students are seeing that. It's having a very positive effect on school culture.

SAT results, which became the CT state test for high school, were strong at AF Hartford High: #2 for all magnets in Hartford, #1 in the state for low income students, and above the state and CREC average.

Staff retention was pretty good from last year to this year - 84%. The leadership team is doing lots of coaching for those new teachers especially those who are struggling. Ms Banks feels that the coaching model is strong but that it reinforces the belief that the investment made in people doesn't work when

teachers turn over in year two or three. A five year commitment is necessary for the investment and progress to really have an impact.

They are currently eight students underenrolled.

The Committee had a discussion about the low number of Jumoke scholars who have come to AF Hartford High. Mr. Troy Monroe shared his insights from speaking with Jumoke families. Barry Jacobson recommended drafting a strategic plan to reach out to Jumoke and engage scholars and families in the outreach process.

At the next meeting, the Committee will discuss the High School Policies.

Barry Jacobson gave a financial report to the Committee noting that at only one month in, there is not much to report. The 2015-16 school year wrapped up right on forecast.
